# *Lenka Navratilova*

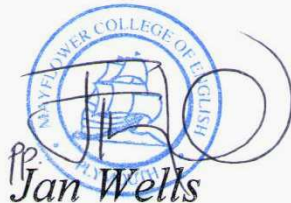

Lenka has successfully completed a 2-week (50 hours tuition) advanced training course for school teachers of English focussing on language awareness, communicative teaching techniques and contemporary British culture. The general tenets of Communicative Language Teaching (principles of lesson planning, classroom management, error correction, teaching of productive and receptive skills) were reviewed and time was devoted to exploring ways of incorporating technology and media in order to make classroom learning engaging and memorable. In addition, input was provided on the use of computers, video, audio, art, drama and music in the classroom.

To offer increased exposure to British culture the course included visits to a local secondary school, theatre, cinema and Saltram house.

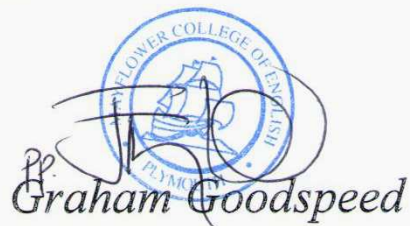

Lenka participated fully and enthusiastically in all the course activities and working within a multinational group of teachers was able to share ideas with her colleagues, learn new methodologies and the use of authentic materials to improve her level of language. The new ideas and methods explored should provide Lenka renewed inspiration to continue her career as a successful English Language teacher.

Lenka has shown herself to be a competent, committed and creative teacher with a high level of language proficiency and a keen interest in enhancing her professional skills. We have enjoyed working with Lenka and have all benefited from her input to the training sessions.

We wish Lenka all the very best for her future work.
